Gabriel Cesar Hutagalung, Full Stack Developer

Kota Sibolga, Indonesia, gabrielhutagalung970@gmail.com

LINKS   Web Portfolio, LinkedIn, GitHub (Projects), Instagram, YouTube (Courses/Tutorials)

PROFILE   A highly capable Full Stack Developer with hands-on experience in Flutter, JavaScript, Angular, NodeJS, React, AI, etc. Proven ability to independently manage projects from conception to deployment and collaborate effectively within a team to deliver robust web solutions. Passionate about leveraging technology to solve complex problems and drive impactful results.

EMPLOYMENT HISTORY

Sep 2024 – Jul 2025   **Tech Lead PT. Klopin**   Kota Tangerang

Building enterprise infrastructure from scratch, including storage, domains, servers, and deployment. Building mobile apps with Flutter, Web Admin, and Marketing, as well as integrating with Google and WhatsApp.

Aug 2024 – Feb 2025   **Junior Full Stack RnD, PT. Mobitech Media Integrasi (Contract)**   Kota Tangerang

Developing a web application integrated with OCR that can extract data from bank statements and ID cards.

Jun 2024 – Aug 2024   **Full Stack Web Developer Intern, PT. Mobitech Media Integrasi**   Kota Tangerang

Developed microservices web applications using Angular, Microsoft SQL, Crystal Report, and Dot NET. I am tasked here with updating the UI of the web app and updating the company's old version of the print report system to the latest version. I also carry out optimization and research for the development of OCR technology within the company with the Neural Network Tesseract.

Jan 2024 – Jun 2024   **Development Lead, Institut Teknologi Del**   Kabupaten Toba Samosir

Being a development lead is a valuable opportunity for me. I gain experience in determining what technology we use to solve existing problems. Then learn to lead my members, so that I can complete the project on time. Here I chose to use PHP Laravel as a framework for building this website. The website that we built is the "Sistem Penjaminan Mutu Institut Teknologi Del" website which will later be used by the institution to manage the quality of education at the institution. The website that has been completed will be managed by the campus team for server management. The following is the web link spm.del.ac.id.

Jul 2024 – Dec 2024   **Discrete Mathematics Teaching Assistant, IT Del**   Kabupaten Toba Samosir

Teaching is one of my passions. I like to share my knowledge as a teaching assistant and on my YouTube channel.

Jul 2023 – Aug 2023   **Lead of Matriculation Program, IT Del**   Kabupaten Toba Samosir

Being the head of the matriculation program was a valuable experience for me. Where I could learn to lead a team, whose task was to provide initial knowledge about their lectures to new students, namely the class of 2023 at that time.

EDUCATION

Jul 2021 – Jun 2025   **Bachelor of Informatics, Institut Teknologi Del**   Kabupaten Toba Samosir

I am currently studying in my 7th semester at this campus with a current GPA of 3.69.

ORGANIZATIONS

Jul 2022 – Aug 2023	**Co-Lead Himpunan Mahasiswa Informatika**	Kabupaten Toba Samosir

When I became Co-Lead in this organization, I learned to be able to lead my study program, especially in the field of education. I created a community called "Forum HIMASTI" on Telegram which can be used as a place to exchange information and knowledge between students and alumni. With this community, I hope that our study program will progress further in the field of education and that the close relationships between students will be established through this community.
